TROPICAL CYCLONE BULLETIN NR. 2
Tropical Depression PILANDOK

Issued at 5:00 PM, 30 August 2026
Valid for broadcast until the next bulletin at 11:00 PM today.

"PILANDOK" MAINTAINS ITS STRENGTH AS IT MOVES NORTHWESTWARD SLOWLY OVER THE SEA EAST OF EXTREME NORTHERN LUZON.

Location of Center (4:00 PM)

The center of Tropical Depression PILANDOK was estimated based on all available data at **1,180 km East of Extreme Northern Luzon (20.8°N, 133.3°E).**

Intensity

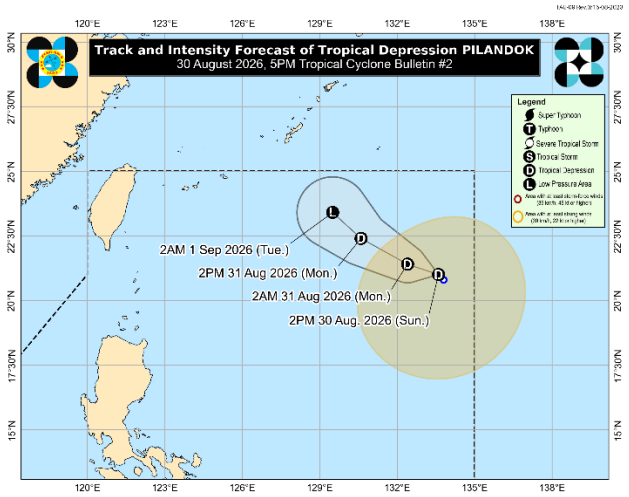
Maximum sustained winds of **45 km/h** near the center, gustiness of up to **55 km/h**, and central pressure of **1002 hPa**

Present Movement

Northwestward slowly

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **420 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 2:00 AM 31 August 2026	21.4	132.4	1,090 km East of Extreme Northern Luzon	45	TD	WNW 10
24-Hour Forecast 2:00 PM 31 August 2026	22.4	130.6	920 km East Northeast of Extreme Northern Luzon	45	TD	WNW 20
36-Hour Forecast 2:00 AM 01 September 2026	23.4	129.5	840 km East Northeast of Extreme Northern Luzon	-	LOW	NW 15

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook
Refer to **Weather Advisory No. 32 issued at 05:00 PM today** for the heavy rainfall outlook due to the Southwest Monsoon.

Severe Winds
The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (30 August):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.
- **Tomorrow (31 August):** Most of the country
- **Tuesday (01 September):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m**: The western seaboard of Babuyan Islands.
- **Up to 3.5 m**: The seaboards of Batanes, Ilocos Norte, Ilocos Sur, and Zambales; the northern seaboard of Babuyan Islands; the western seaboards of Pangasinan and Bataan.
- **Up to 3.0 m**: The seaboard of Lubang Islands; the western seaboards of northern La Union, Cavite, Batangas, northern Occidental Mindoro, and Kalayaan Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m**: The western seaboard of northern Palawan including Calamian Islands; the eastern seaboard of Davao Oriental; the remaining seaboard of Kalayaan Islands; the remaining western seaboard of Occidental Mindoro.
- **Up to 2.0 m**: The seaboards of Isabela, Antique, Surigao del Sur, and Davao Occidental; the southern seaboards of Iloilo and Guimaras; the western seaboard of Negros Occidental; the remaining seaboards of Babuyan Islands and Davao Oriental; the remaining western seaboard of mainland Palawan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- PILANDOK is forecast to move west northwestward tomorrow (31 August) before turning generally northwestward for the remainder of the forecast period. This tropical cyclone is less likely to make landfall over the country and will remain far from the Philippine landmass.
- PILANDOK is expected to be a short-lived tropical cyclone and is forecast to remain a tropical depression throughout the forecast period before weakening into a remnant low over the Philippine Sea south of the southern islands of Japan on Tuesday (01 September).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
